### DESCRIPTION ET EQUIPEMENTS

Cobra SR V8 Supercharged 385 hp. RHD. 1970. Only for bad boys The mythical AC Cobra was born at the beginning of the 60s thanks to the imagination of racing driver Caroll Shelby who had the idea to implement a V8 inside the AC Bristol chassis in order to beat Ferrari in competition. Initially the AC Bristol received a straight 6 engine and competed in Europe, it arrived at the 7 th position at Le Mans 1959 winning the 2-liters' category. So according to Shelby's demand, the AC founders Hurlock brothers modified their chassis to receive the Ford V8 260, giving birth to the first Cobra. Then it has been several evolutions and engines on the AC Cobra that has been produced until 1969. Owing to its great success, the Cobra has been produced as well by few other manufacturers such (...)
