DESCRIPTION ET EQUIPEMENTS

The car is in great condition and comes with FIA regularity passport. ATL used a tube frame to build this Alfa Romeo 6C 3000 CM. The car got fully restored in 2017 and has a beautiful patina. Engine is a 2.5-liter 6 cylinder double ignition. A perfect car with a great engine to compete many events. The 3000 CM (Competizione Maggiore) was the ultimate version of the 6C race cars. The 3000 CM was built as a prototype, and its design extends all the way back to the pre-war 6c 1750 and the later 6c 2500 SS race cars. This car was built to contest top events like the Mille Miglia and Le Mans. This Alfa Romeo 6C 3000 CM is a reconstruction produced by ATL in the late 70. ATL is a coach builder and was mainly active in the early 1960s until the 1970s. In that time, ATL built a wide variety (...)
