DESCRIPTION ET EQUIPEMENTS

The first Fiat 1500 was presented at the car show Milan in 1935. Automotive engineer started to pay attention to aerodynamic considerations. Developed in a wind tunnel, the Fiat 1500 was an outstanding example of this newly acquired knowledge. Under the hood you will find a 1493 cc overhead-valve six with an ability to produce 45 hp, which was transmitted to the rear wheels via a four-speed gearbox. This is enough to reach a top speed of around 115 km/h. Weber carburetors allow the engine sound wonderful. Fiat 1500 was offered as a standard saloon as well as the cabriolet models. The chassis of the Fiat 1500 was popular with independent coachbuilders. Special and competition bodies were created to compete in various events such as the Mille Miglia and Targa Florio. The body has been (...)
