DESCRIPTION ET EQUIPEMENTS

This stunning Lancia is powered by a 6 cylinder 2200 cc engine producing 87 hp. Power is sent through a four-speed manual transmission. A complete restoration found place in 2017. This car is offered with FIA historical passport and Belgian registration. It was in the 1950s when racing events became very interesting with the inclusion of so many teams ranging from well-known brands to individuals. At that time the racing cars fighting on the track seemed to have the same shape, namely the open-top sports car, aka the barchetta. And one of them is the Lancia racing car. The car that we are offering has a very smooth silver-colored body and was rebodied in full aluminum by the Italian coach builder ATL in the beginning of 80s.
